## Sitting Pretty

Finally, an adjustable wooden high chair that is affordable!

The Height Right high chair from Keekaroo grows with your child . . . from 6 months up to adult! If your toddler can comfortably sit upright then he or she is ready for a Height Right Wooden High Chair.

And as they grow, the Height Right wood high chair grows with them. Completely adjustable to each child's needs, the wooden highchair adjusts in height and depth of the seat and footplate. This allows every child the perfect seating position.

Featured above in green, the soft, flexible seat cushion can be easily removed for washing and provides a great deal of comfort for your little one. Choose from green, brown, lilac, blue, or red.

## Crib Recalls

Crib recalls have been in the news a lot lately, and the information can be overwhelming and unsettling. Put your mind at ease by learning what to look for and who to call. For simple instructions on creating a safe sleeping environment for your child, or a list of recalled cribs, visit [cribsafety.org](http://cribsafety.org) or call 877-673-2742.

You can also give us a call here at Lazar's and we'll answer any question you may have.

Sincerely,
